## The Texas Affordable Bachelor's Degree in Organizational Leadership

A college degree can open up new opportunities in life and at work. But many things can get in the way of finishing your degree. Now there is a new academic program, The Texas Affordable Bachelor's Degree, that builds on what you've learned in the past to benefit your future. Your work experience, prior education, and military service can all count toward a high-quality bachelor's degree in organizational leadership from a leading Texas public institution.

### **Build the Future You've Always Wanted**

The Texas Affordable Bachelor's Degree in organizational leadership helps you develop vital skills for today's workplace. This is the first competency-based bachelor's degree from a Texas public institution. By building on courses you've taken and skills you've developed through your work and life, you can move through the curriculum faster than you would with a traditional degree. This degree focuses on skills that will help prepare you for a position of leadership in business, government, non-profit, or educational organizations. It's a degree that can open doors to new opportunities.

### **A Flexible Curriculum**

The organizational leadership curriculum is offered year-round in six seven-week terms, and helps you develop skills in a variety of areas, including written and oral communication, teamwork and problem solving, and critical

thinking. It is completely online at Texas A&M University-Commerce. At South Texas College, the first 90 hours of instruction are available through online modules and the last 30 hours are a combination of face-to-face and online. This degree is a personalized program with academic coaches and tutors who advise and mentor students in the program. The upper division courses enable you to solve real-world business problems and demonstrate new skills through a final project that will be part of your portfolio for future opportunities. This type of personal attention helps students succeed and be ready to take on more challenges in today's workplace.

### **An Affordable Degree**

Tuition for the organizational leadership degree is \$750 per term. Students are able to accelerate through as many courses per term as possible, provided they demonstrate mastery of the subjects. A student entering the program with no prior college credit should be able to complete the degree in three years for between \$13,000 and \$15,000.
